

Greetings from ISMK!

Missionary Training (MT) and MA Pre-Field Orientation (PFO) are quickly approaching, and we can't wait to see you and your kids! We are busily preparing for the summer and all its activities. Information and packing lists are provided below to help you plan for your time in Springfield. Note: all MK programs (except Nursery/Toddler) will be held at Evangel University while parent sessions are held at Central Assembly.

Please pray with us for all the kids attending. We want them to enjoy the activities, but most importantly, we want our precious young people to let God move in their hearts and minds!

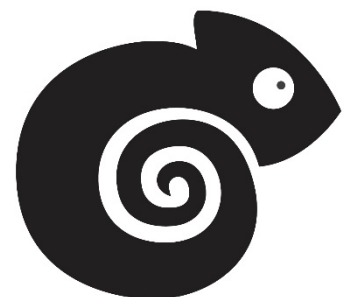

See you soon,

Chad and Dargan Phillips
ISMK Program Manager

REGISTRATION

Much of your registration has been automated online. On-site registration will still be required in June, where you will need to sign release forms, but our early online registration enables the process to be much quicker overall. **Please note that both parents must attend the on-site registration** to complete the registration process.

Children are assigned to programs according to their age this fall. The information you provide about your children online is given to their specific program coordinators so they can provide optimal care for your children. Please note that attendance is required except in the case of illness.
